

time period, total U.S. exports have increased from 500 million bushels to 1.3 billion bushels.

Thanks in part to the work of the North Dakota Wheat Commission, U.S. hard red spring and durum wheat are exported to more than 80 countries around the world. These exports account for 50 percent of hard red spring wheat and one-third of durum wheat. The North Dakota Wheat Commission's customer base includes markets across the globe, including Asia, Latin America and Europe.

While our wheat output and exports have increased, one thing has remained the same: My State's wheat producers have a solid reputation around the world for having a premium product. This is, in part, thanks to the hard work of the North Dakota Wheat Commission.

In closing, I again want to recognize the North Dakota Wheat Commission for a successful first 50 years and wish them continued success in the future.●

COMMENDING ERIC YANG

● Mr. CORNYN. Mr. President, today I wish to recognize the achievements of Eric Yang, a 13-year-old seventh grade student at Griffin Middle School in The Colony, TX. Eric recently competed in and won the 2009 National Geographic Bee, held here in Washington, DC. Out of a field of 55 contestants, one from each of the 50 States and territories, Eric won the competition in the third finals tie-breaker. Out of nine students, Eric was the only one who missed no questions. This has only occurred five times in the competition's 21-year history. In recognition of his success, Eric will receive a college scholarship worth \$25,000, a lifetime membership in the National Geographic Society, and a trip to the Galápagos Islands with the moderator of the National Geographic Bee and host of "Jeopardy!," Alex Trebek. To achieve this honor, Eric won a nationwide contest comprised of nearly 5 million students in the fourth through eighth grades who had participated in the local geographic bees held in the 50 States and five territories.

The winning question was: "Timis County shares its name with a tributary of the Danube and is located in the western part of which European country?" The answer, "Romania," was given correctly by Eric Yang after two other tie-breaker questions. Eric is the first Texan to be named champion in the competition's 21-year history. According to Eric's mother, the main reason for his success has been his curiosity, saying that it "is a major part of Eric. He reads everything from history books to cookbooks to learn about other places and cultures." Eric's desire to learn is also evident in his scholastic record. At age 13, Eric scored a 2200 on the SATs out of a possible score of 2400.

Young Texans, such as Eric Yang, prove that persistence and a curious mind are the keys to unlocking oppor-

tunities for success. I congratulate Eric on this important accomplishment and encourage him as he continues his quest for knowledge.●

COMMENDING JOE AND CHRISTINE TOWNSEND

● Mr. CORNYN. Mr. President, today I recognize the distinguished service of two Texans, as they approach retirement from Texas A&M in January 2010. For over 30 years, Dr. Joe D. Townsend and Dr. Christine Townsend, often referred to as "Dr. Joe and Dr. Chris" by their students, have served the students of Texas as instructors, mentors, and friends. By recognizing and cultivating the untapped potential within students, they have inspired countless youth to be men and women of character, vision, and dedication.

Dr. Joe began serving students over 40 years ago as a vocational agriculture teacher in Aubrey, TX. Since that time, he has positively impacted the lives of thousands of students through many different roles. At Texas A&M University, Dr. Joe served as a professor, associate dean for student development in the College of Agriculture and Life Sciences, and most recently, associate vice president for student affairs. His office was known as refuge for students in need of wisdom and advice, and many relied on his support and encouragement to make the difficult transition from high school to college.

Dr. Chris' career in higher education began three decades ago at Illinois State University. At Texas A&M, Dr. Chris has served as a professor, department head, undergraduate coordinator, and undergraduate adviser in the department of agricultural leadership, education, and development. She has a gift for recognizing the unique needs of students and never failed to commit her time, energy, and resources to meeting their needs. Dr. Chris' love for teaching students has made a lasting impact on her department and her departure will leave a void that will be difficult to fill, and a legacy that will be easy to remember.

Their years of selfless service and unwavering devotion to the improvement of students' lives have earned the respect of countless Texans. I thank them for their commitment to excellence and send my best wishes for the years ahead.●

REMEMBERING JACK EBERSPACHER

● Mr. NELSON of Nebraska. Mr. President, today I wish to pay tribute to a good friend and great Nebraskan, Jack Eberspacher, who passed away on July 5, 2009, at the tender age of 55 after a short but courageous battle with cancer. Jack was a very special friend to all who knew him, dedicating his professional life to the advancement and betterment of the agricultural industry and the agribusiness community.

A native of Seward, NE, Jack received his bachelor of science degree from the University of Nebraska at Lincoln. After several years working in various agribusiness positions throughout the United States, Jack was named the chief executive officer of the National Grain Sorghum Producers Association, headquartered in Lubbock, TX. He is credited with growing that association by 300 percent and with developing balanced association programs on policy, plant science and utilization, and for placing the association on the national legislative and regulatory scene.

In 1998, Jack accepted the position of chief executive officer of the National Association of Wheat Growers here in Washington, DC. Under his leadership, the organization experienced a financial turnaround, with Jack leading the group out of a negative budget in net earnings to a positive one in just over 2 years.

Jack was appointed president and chief executive officer of the Agricultural Retailers Association in 2001, where he remained until his passing. In this capacity, he increased the annual association dues revenue by more than 100 percent. In February 2002, he was the only commodity leader invited to address the National Governors' Conference, where he discussed the importance of the 2002 farm bill and the state of the agricultural economy.

Jack was also a political activist and volunteer; an active member of the Bennett Roundtable of the Farm Foundation of Chicago, Illinois; and a recipient of the Alpha Gamma Rho Fraternity Brother of the Century Award.

I offer my most sincere condolences to Jack's wife Jinger and their family. Jack's passion for service, dynamic leadership, and unwavering dedication to the greater agribusiness community will remain a source of inspiration to all those who knew him.●

50TH ANNIVERSARY OF THUNDER ROAD INTERNATIONAL SPEED-BOWL

● Mr. SANDERS. Mr. President, today I honor a renowned Vermont landmark and business, Thunder Road International SpeedBowl, which is celebrating its 50th anniversary this season.

Thursday nights every summer, short track races take place on Thunder Road's uniquely configured quarter-mile paved track. Thunder Road has been recognized as one of the finest short tracks in the Nation. Built in 1959 on farm land in Barre, VT, by longtime network sports commentator Ken Squier and his partners, Thunder Road is an American institution of which Vermont is proud.

Thunder Road has offered inexpensive family entertainment for five decades. This revered race track has brought international racing stars to the Green Mountain State while also offering opportunities for Vermonters
